

## FOR IMMEDIATE RELEASE

### Aqua Diagnostic and Mantech Form Global Partnership

**15 December 2010:** Aqua Diagnostic Pty. Ltd. announced today that MANTECH INC. has been appointed global OEM distribution partner of Aqua Diagnostic's L100 PeCOD® COD Analyser. Mantech will now distribute the L100 under the MANTECH brand through its global network of distribution partners.

According to Dr Roger Knight, Chief Executive Officer, Aqua Diagnostic, *"We are very pleased to be expanding our distribution partnership with MANTECH. After introducing our unique range of new COD analysers to the Canadian and North American markets in 2009, Mantech have built a strong base of new customers who are now benefiting from the real time, low operating cost, green PeCOD® COD analysers. This new partnership will enable more rapid global uptake of our products through a high quality, well trained distribution structure."*

According to Robert Menegotto, President of MANTECH, *"We have been overwhelmed with the positive market feedback on the PeCOD® analysers and are very excited about the future of this unique new product. With the recent release of MANTECH's automated COD system incorporating the L100 COD analyser, we expect strong growth as more customers are able to gain the benefits of the PeCOD® technology in the field, laboratory, process lab or on-line."*

#### **About MANTECH INC.**

MANTECH is a leading supplier of laboratory instrumentation and supplies including the MANTECH series of (Aqua-Multi™) automated multi-parameter and BOD instruments specializing in water analysis. MANTECH is available through a network of distributors in the U.S.A., Canada and many countries throughout the world.
